Fund Update

Moderate Fund

For the quarter ended
30 September 2026

This fund update was first made publicly available on 29 October 2026.

What is the purpose of this update?

This document tells you how the Moderate Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Generate Investment Management Ltd prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Moderate Fund aims to provide a modest to medium return over the short to medium term. It invests in an actively managed portfolio made up of slightly more income assets than growth assets. Volatility is likely to be medium to high. Returns will vary and may be low or negative at times.

Moderate Fund	
Total value of the fund	$865,555,788
Number of investors in the fund	23,697
The date the fund started	16 April 2013

What are the risks of investing?

Risk indicator for the Moderate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at generatewealth.co.nz/survey. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last five years[1]. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Fund Update: Moderate Fund

30 September 2026

How has the fund performed?

	5 year p.a.	Past year
Annual return (after deductions for charges and tax)	4.37%	3.46%
Annual return (after deductions for charges but before tax)	5.02%	3.48%
Market index annual return (reflects no deduction for charges and tax)	4.55%	4.49%

The market index return reflects a composite of benchmark index returns, weighted for the fund's target asset allocation, being the fund's relevant benchmark since inception. All of the share market benchmark indices used include dividends but do not include imputation credits.

Additional information about the market index is available in the SIPO on the register at disclose-register.companiesoffice.govt.nz.

Due to the significant change in asset allocations, past performance may not be comparable with the fund's expected future performance.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2026.

Important: This does not tell you how the fund will perform in the future. Returns in this graph are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. Benchmark returns in the graph are before the deduction of tax.

What fees are investors charged?

Investors in the Moderate Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges	1.14%
Which are made up of:	
Total management and administration charges including:	
Manager's basic fee	1.11%
Other management and administration charges [2]	0.03%
Total performance based fees	0.00%
Other charges	$ amount per investor
Membership Fee [3]	$36.00 per year

A portion of the 'other management and administration charges' relate to management, performance and administration charges from investments in underlying funds. Some of these calculations are based on estimates.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

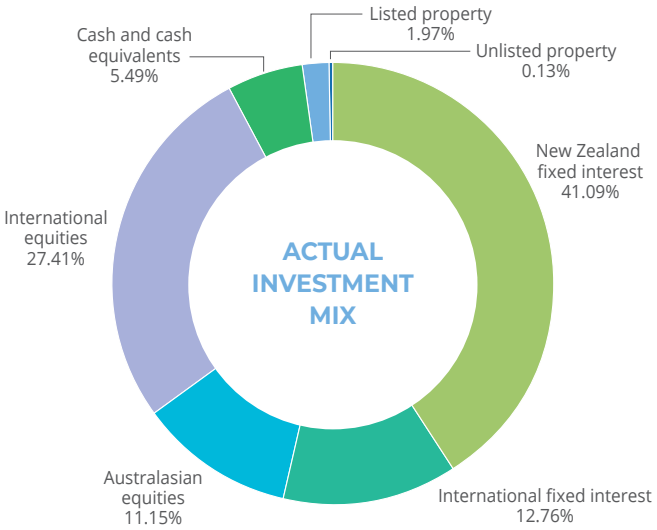

Hannah had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hannah received a return after fund charges were deducted of $346 (that is 3.46% of her initial $10,000). Hannah also paid $36 in other charges. This gives Hannah a total return after tax of $310 for the year.

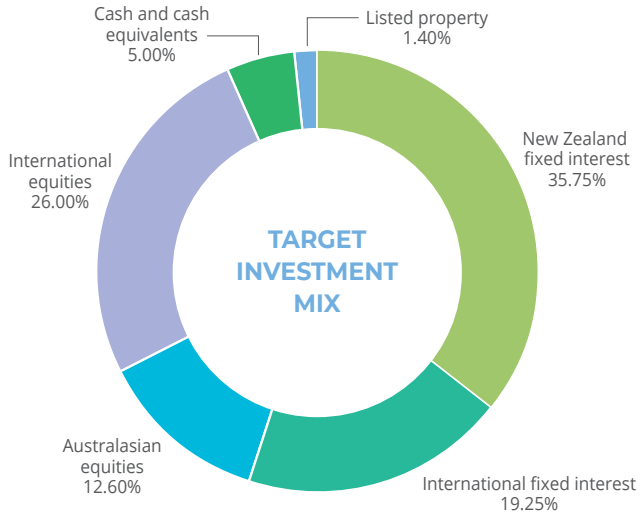

Fund Update: Moderate Fund

Further information

You can also obtain this information, the PDS for the Generate KiwiSaver Scheme, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

1. As the fund's investment policy has changed significantly and its returns before the change would not reflect its current investment policy, with the effect from 20 May 2022, a combination of market index returns and the fund's actual returns has been used to complete the risk indicator. Actual returns have been used from 20 May 2022 to the end of the period to which this fund update relates. For all relevant periods prior to 20 May 2022 market index returns have been used in order to construct a total 5 years of returns on which to base the risk indicator. As a result the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. This fund invests in underlying funds managed by third party managers. The fees on these funds are taken from offer documents or estimated using data from their most recent financial statements. Where applicable, performance fees on underlying funds are estimated taking into account highwater marks.
3. Membership fees are the monthly fixed dollar charges for membership in the Generate KiwiSaver Scheme. You will pay only $3 each month even if you are invested in multiple funds within the Generate KiwiSaver Scheme. Members under the age of 18 are not charged this fee.
4. International equities are made up of directly held equity investments.
5. 'Cash and cash equivalents' includes the value of foreign exchange hedging derivatives related to the fund's off-shore investments, on call deposits and short term (less than 12 months) fixed interest investments.
6. The fund has the ability to invest in unlisted property and infrastructure investments as per limits set in the SIPO.
7. Australasian equities include an investment in unlisted New Zealand equities.
8. As at 30 September 2026, the Target Investment Mix has changed. Please refer to Fund Updates prior to 30 September 2026 for the historical Target Investment Mix.
